

Aquassure Bath Products Inc, manufacturers accessible bathtubs to enable people with mobility challenges to bathe safely in their own homes, maintaining their independence, health and dignity.

Our unique bathtub and fixture designs allow greater ease of use and installation than walk-in style tubs. Unlike a regular bathtub, the Aquassure Bathtub is raised-up on a pedestal base, with a sliding door like a van door. Entry and exit is like getting in and out of bed. Aquassure bathtubs incorporate premium, user-friendly fixtures and are accessible from walkers, lifts and wheelchairs.

Aquassure Bathtubs include:

- ✓ ¾" Thermostatic valves and factory installed plumbing fixtures
- ✓ Unique side-mount filler for a quieter, more comfortable fill
- ✓ Choice of either modern or lever handle style trim set.
- ✓ White melamine cabinet base
- ✓ Installation kit & instructions
- ✓ Unique sliding door with self-latching function
- ✓ Available in left or right-hand door models

Available upgrades:

- ✓ Water jet system with seven jets and incredibly quiet operation!
- ✓ Air jet system with 20 air jets
- ✓ Combination air and water jet system
- ✓ Electronic Control System with air and water jets
- ✓ Hardwood finish on cabinet base in choice of stain finishes
- ✓ Add on foam headrest in choice of colours
