

Assista-Rail™

A quarter length bed assist rail that allows for a fixed cane to be added as needs change. Provides a useful combination of bed safety with bed mobility. Fits twin to king size beds.

Features and Benefits

• **Simple Installation.**

Slide the Assista-Rail™ between the box spring and mattress, secure to bed frame with mandatory safety strap. Traction grips help to prevent rail from shifting during use.

• **Assista-Cane™ Add On Kit (sold separately).**

A sturdy handle that mounts to the Assista-Rail™ and can be fixed at any angle to provide a safe weight bearing surface. Minimizes the risk of falls by reducing body twisting.

• **Assista-Cane™ Leg Extender (sold separately).**

Increases the Assista-Cane™ height from 32.5" / 83 cm to 35.5" / 90 cm for taller users.

• **Dual Rail System (sold separately).**

Conversion kit allows an Assista-Rail™ to be placed on both sides of a bed.

Mattress removed
